Senior Manufacturing Analyst

The Sr. Manufacturing Analyst will be an active member of the Operations Finance Team providing divisional financial support across all aspects of the manufacturing operations within the Masco Retail Cabinet Group. This position will act as a financial advisor and partner to a variety of cross-functional areas including Production Control, Quality, Manufacturing, Facilities, and Inventory Control providing costing/financial support, problem resolution and recommendations for process improvements.

Specific Responsibilities:

- * Assist Operations Controller with implementation of division wide standard cost system.
- * Act as a liaison between Operations Finance Team and other areas requesting costing and financial information/data.
- * Consolidate plant level reporting and commentary on actual monthly results compared to forecast and budget.
- * Provide detailed variance analysis and reporting for manufacturing activities.
- * Develop and implement action plans to address variances issues/best practices that will positively impact COGS.
- * Assist in development and consolidation of annual operating plan.
- * Provide month-end close support to manufacturing sites and Ops Controller.
- * Ensure all manufacturing investment projects have appropriate financial models/analyses and valid business case assumptions.
- * Lead the annual cost roll process.
- * Conduct post audit reviews capital investment projects.
- * Ad-hoc projects and analysis as requested.

Essential Skills and Experience

- * Bachelor's degree in Accounting or Finance.
- * Three or more years of cost accounting experience in a manufacturing environment.
- * Must have knowledge of Excel, Access, and standard cost / inventory systems.
- * Must possess and sense of urgency and have a strong work ethic.
- * Ability to interact with all levels of associates and work in a team environment.
- * Good planning and organizational skills combined with good written and oral communication skills.
- * Must be capable of collecting and assimilating relevant business information and data to develop fact based recommendations and support business decision making.
- * Must be dependable and trustworthy.

* Ability to work independently with minimal supervision
